

God's Way Ltd

Volunteer Selection Programme

Participant Preparation Pack

Programme Overview for Participants

Creators:	Eloisa Lytton-Hitchins, Tristan John Miller & Mary Luck
Description:	An overview for participants to provide: Programme details, programme primary objective, programme requirements, basic programme structure, and an index of principles and terms
Created:	12th June 2017
Version:	3.0
Version Date:	16th July 2019

1. Programme details

Following is a summary of the basic details participants need to know.

Facilitators

Eloisa Lytton-Hitchins & Tristan Miller

Mentors to facilitators

Jesus & Mary

Number of participants

To be advised

Activity locations

Various locations in Wilkesdale, QLD, Australia

Project days & dates of attendance

If you have been accepted to a project check your acceptance email for specific days and dates.

Project days: Monday, Tuesday, Wednesday, Thursday, Friday.

Volunteer Selection Project Instance 4.0, dates:

Week 1: Monday 30th March, to Friday 3rd April, 2020 (5 days)

Week 2: Tuesday 14th April, to Friday 17th April, 2020 (4 days)

Week 3: Monday 27th April, to Friday 1st May, 2020 (5 days)

Contact for general enquiries

office@godsway.net

Facilitator contact details

Eloisa Lytton-Hitchins

[*Introduction to environmental recovery by Jesus January 2017*](#)

2. Programme priorities

The following is a list of the priorities God has for our lives. Suitable volunteers will demonstrate a sincere desire to seek, act in harmony and engage with these priorities in the way God desires all his children to do so.

List of priorities in order:

1. Love of God
2. Love of themselves and their soul mate

3. Love of others
4. Love of the natural environment

3. Programme primary objective

The Volunteers Selection Programme is a trial or a test period designed to identify sincere, passionate and desirous individuals who wish to give to Divine Truth and God's Way organisations.

Suitable volunteers will demonstrate and act on the following qualities:

The sincere desire to serve

The desire and aspiration to know and engage a range of attitudes that are a part of true service

The desire to understand and live by principles of God's Truth in day to day life

The desire to bring their life into harmony with God's definition of love

The desire & willingness to be educated God's Way

The desire to be self-responsible (see definition in the '*Index of principles & terms*' in this document)

The desire to correct unloving behaviour and beliefs

Take action to bring their life into harmony with God's definitions of love and truth

Take action to learn and complete tasks in harmony with God's Principles

A personal priority of sharing time, energy, and personal resources to further the sharing of God's Truth worldwide

Is willing to perform any loving task required

Further explanation of the primary objective and secondary objectives of the programme can be found in "*Appendix 1: Programme Objectives*".

4. God's Principles

Throughout the programme participants will be given opportunities to practically apply, interact and engage with God's Principles and develop their ethics and morality. More detail about each of God's Principles (listed below) can be found in the '*Index of principles & terms*' at the end of this document.

Love

Truth

Authority

Compensation

Desire

Development

Economy

Function

Governance

Hierarchy

Life

Human Redemption

Human Transformation

Permanence

Responsibility

Scope

5. Programme requirements

5.1. Participation requirements

In order to participate in this programme, applicants must:

Have a sincere desire to assist in the work of sharing Divine Truth worldwide

Be available to attend and participate every day of the programme (unless a prior arrangement has been made with facilitators or in the case of illness)

Desire feedback regarding personal emotions and condition in love, especially in relation to their being of service to others

Not be reliant or demanding on others for feedback

Take action to work on personal emotions and condition in love, in their own time, throughout the duration of the programme

Undertake tasks with or without instructions in a loving, self-responsible, and thorough manner

Place a priority on sharing personal time, energy and resources towards goals and aspirations of Divine Truth and God's Way organisations

Desire and be available to assist Divine Truth and God's Way organisation projects after the programme is complete, potentially on a permanent basis

Be aware that under certain conditions they will be temporarily removed and/or excluded from the programme (see "*Appendix 2: Upholding Love & Truth*" for more detailed information)

5.2. Selection of participants

Priority for inclusion in the programme will be given to participants who:

Have not yet had a chance to participate in a Volunteer Selection Programme

Appear most likely to complete the programme

Are already motivated and have a pure desire to assist in the operations of Divine Truth and God's Way organisations

Have already demonstrated some initiative in volunteering for Divine Truth organisation or sharing Divine Truth independently

Have the capacity to be directly involved in assisting in Divine Truth and God's Way organisation projects following completion of the programme

Have expressed a desire to voluntarily assist in Divine Truth and God's Way organisation activities, prior to the announcement of this programme

6. Basic programme structure

6.1. Activities

Will include:

Individual and group activities

Individual and group homework

Individual and group assignments

Individual research tasks

7. Upholding love and truth

This is a brief summary of participant responsibilities to uphold love throughout the programme.

More detailed information and the approach that facilitators will take to uphold love is provided in "Appendix 2: Upholding Love & Truth".

Participants are encouraged to be transparent, truthful and uphold truth and love, in all their dealings during the programme.

Making mistakes is okay; however, participants will be required to correct their mistakes.

Participants have the personal requirement to:

- Be responsible for their attitude, intentions, behaviours, emotional and physical wellbeing
- Identify which attitudes, intentions and behaviours are out of harmony with love
- Develop their attitude, intentions, behaviours, and skills in a positive way

Programme activities are designed so that participants have the opportunity to:

- Try new things
- Be outside of their personal comfort zone
- Experience a variety of situations and conditions to see how they respond to these experiences, some of which may feel challenging
- Identify attitudes, intentions and emotions that effect their ability to serve
- Take action to remove from themselves the unloving attitudes, intentions and behaviours

7.1. Forms of correction (temporary removal & exclusion)

In the best interests of the participants and facilitators, there are some situations where the most loving thing to do is temporarily remove or permanently exclude a participant or participants from the programme (see "Appendix 2: Upholding Love & Truth" for more detailed information).

Temporary removal refers to a short period of time, such as the duration of an activity or part of an activity. Temporary removal will occur to;

To create an opportunity for the participant to reflect upon and take emotional steps to resolve an unloving attitude, desire, behaviour that is negatively impacting upon themselves or others during the programme activities, and to,

To limit the effect of an unloving attitude within the participant upon others and the programme activities

Exclusion refers to being permanently removed and not being able to continue to participate in the rest of programme. Exclusion will occur if;

The participant has been given ample time and opportunity to address an unloving attitude or behaviour but has made no attempt to rectify it and remains in a state of justifying the attitude or behaviour, and/or,

The participant's behaviour is directly and actively attacking towards others, themselves or the environment

How early in the programme a participant is temporarily removed and/or excluded depends on the severity of their attitude, intention or behaviour.

Participants who actively attack or harm others, themselves or the environment, or who have the intention to do so, will be immediately excluded from the programme.

Participants who are excluded will have the opportunity to reapply to future Volunteer Selection Programmes.

Before acceptance to any future programmes, participants will need to emotionally address the issue that caused them to previously be excluded.

8. Volunteer selection

Participants who;

- engage with the weekly programme requirements, and,
- demonstrate a sincere attitude of service, and,
- display the favourable qualities outlined in "*Appendix 1: Programme Objectives*"

will complete the programme.

Those who complete the programme may then be invited to participate in volunteer training with either Divine Truth or God's Way organisations.

While participants will be trained in certain tasks during the selection programme, they will not be trained in specific roles or skills necessary to volunteer within either Divine Truth or God's Way organisations.

If a participant does not have the attitude, qualities and skills needed to complete the selection programme, or is unwilling to develop these themselves, independent of assistance, then they will not be a suitable volunteer for future projects of either organisation.

9. Index of principles & terms

More information on God's Principles can be found on the Divine Truth website, www.divinetruth.com under [Assistance Group](#) resources "*Understanding God's Loving Laws*". The outlines for these events can be downloaded at the following [zip file link](#).

9.1. Ethics and morality:

Ethics is acting in harmony with natural love of all humans. Very simply defined ethics is *"treat others as you would like to be treated"* taking into consideration love of self, others, creatures and the natural environment. Ethics creates equality between humans.

Morality means treating others, ourselves, and all of God's Creation in harmony with God's Love. Morality is a standard or code which helps us understand what is good and evil, loving and unloving from God's perspective.

9.2. Gift:

Anything (physical, spiritual, or emotional) given without expectation or demand to receive any form of emotional, physical or spiritual reward or payment in return. This includes the absence of desire for monetary payment, preferential treatment, special attention, approval, 'glory', or a feeling of self-importance

9.3. God's Authority Principles:

The label given to the sum total of God's Principles of Scope, Hierarchy, Governance, Responsibility and Compensation working in unison through Laws that force assignment of authority to each soul that creates

Each soul is the highest authority over its creations as long as all constituent elements of its creation have been created by that soul

God has immutable authority over all of God's Principles, Laws and Creation

God has some authority over human creations that contain elements that God created

God has no authority over human creations that do not contain elements that God created

God has no authority over the human use of will but does have authority over its affects upon the soul

God expects humans to destroy their own creations that are out of harmony with God's Principles and has created Laws that assist the humans to do this

Humans have direct authority over what they create if those creations do not contain elements that God created

If human creations contain elements that God created, then humans do not have authority over those elements

God's Laws are working to destroy human creations out of harmony with Love

9.4. God's Compensation Principles:

Aim to educate the human soul about the concept of sin

Ensure that compensation (reward or correction) is provided to the soul

Ensure self-responsibility is the measure for compensation

Force the highest creation (human souls) to be responsible and accountable

Compensate consistently and predictably according to the soul's actual level of self-responsibility whether the external environment is affected or not

9.5. God's Development Principles:

Ensure expansive change is forced upon all matter

Ensure growth is supported, encouraged and sustained

Ensure positive development and evolution occurs for all matter

Ensure increasing capacities can develop within all creation

Ensure the self-determination of the human soul

9.6. God's Economy Principles:

Ensure equal value of resources (time, matter and energy) in all of God's creations

Ensure the economical use of resources to create function in all of God's creations

Ensure the automation of laws and creations (so there is no external maintenance)

Ensure that the Economy principles are incorporated within creation and law

9.7. God's Function Principles:

Ensure the equal value of outcomes (results, beauty, and the use of resources of time, matter and energy) in all of God's creations

Ensure each of God's Laws and creations has multiple functions that are automatically fulfilled

Ensure the economical use of resources to create multi-functionality in all of God's creations

Ensure the automation of function and outcome

Ensure creation itself instinctively "desires" to fulfil all outcomes

9.8. God's Hierarchy Principles:

Determine the hierarchy of law by the complexity of each law

Determine the hierarchy of creation by the complexity of each creation

Ensure more complex creation is governed by more complex laws

Ensure higher creations and laws exert more power, have more energy, and more complex properties

9.9. God's Human Desire Principles:

Ensure all laws respond to the desire of the human

Ensure all laws satisfy the desire used in harmony with God's Love and correct the desire used in disharmony with God's Love

Allow for the potential for change, growth, development and transformation of the human soul into a Divine being with immortality by engaging God's Principles of Redemption and Transformation

9.10. God's Human Redemption Principles:

Enforce compensation upon human will and desire

Ensure human redemption of the soul's will to recover the human soul back to its created pristine condition

Encourage a desire for Divine redemption to speed the recovery of the human soul, begin to establish and grow a relationship with God, and precondition the soul allowing transformation into the Divine to begin

9.11. God's Human Transformation Principles:

Allow desire driven transformation from the human soul into a Divine soul

Allow desire driven absorption of God's attributes by the human soul

Allow for potential of the entire soul (both halves) to join in full self-awareness

Assign the gift of immortality to the human soul who transforms

Assign the potential of infinite expansion and expression to the human soul

9.12. God's Human Will Principles:

Ensure all laws respond to the will of the human

Ensure all laws satisfy the will used in harmony with God's Love and correct the will used in disharmony with God's Love

Gives power and joy to God's Highest Creation (human souls) to create independently, to govern, to be responsible, compensated and redeemed

9.13. God's Governance Principles:

Ensure that everything is under God's Authority

Ensure God's Laws control and govern all of creation

Ensure God's Laws allow human souls to share governance. Each human soul automatically governs, but the power of governance is determined by development

9.14. God's Life Principles:

Allow Life energy from God to be given to living creatures

Ensure that Life energy is transferred during pro-creation

Aim for Life to be promoted, nurtured, respected and sustained

Ensure that imbalance is prevented and repaired
Ensure matter that "dies" is transformed to promote life

9.15. God's Love Principles:

Ensure that Love governs all of God's other principles
Ensure that in all God's Laws, Love is enforced, compelled and upheld
Ensure that all God's creations experiences God's Love in different degrees
Ensure that all of God's creations demonstrate and facilitate the flow of God's principled love
Allow for the potential of the human soul to enter a love based relationship with God

9.16. God's Permanence Principles:

Ensure God's Laws are unchangeable, consistent, permanent, and self-enforcing
Ensure God's Laws are structured, verifiable and mathematical
Ensure God's Laws are measurable, quantifiable and observable
Ensure that God's creations have safety and predictability in the universe

9.17. God's Responsibility Principles:

Force the human to be self-responsible
Encourage the human to desire self-responsibility
Allow God to reward true self-responsibility with role-responsibility (i.e. role-responsibility is a compensatory gift given to those with self-responsibility)

9.18. God's Scope Principles:

Ensure inbuilt rules are placed within each creation (e.g. genetics)
Ensure inbuilt rules determine the creation's potentials, energy flow and properties
Ensure external rules affect each creation's properties and energy
Ensure external rules allow for expansion of each creation's properties and energy
Ensure external rules allow for new laws and creations
Ensure external rules control the flow of energy between creations

9.19. God's Truth Principles:

Ensure God's Truth is inseparably joined with God's Love as the highest of all principles
Ensure that God's Truth is enforced and compelled
Ensure that all creation lives within the framework of mathematical, scientific, spiritual and emotional fact

Ensure precision and certainty in the fabric and framework of creation

9.20. Self-responsibility:

Self-Responsibility is the Law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and Law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and Laws.

A person's level of self-responsibility is measured by God not as the perfect embodiment of humility, expression of love or desire for truth but by the sincere desire to attain this state.
